## AKE..

Kurulduğu 1995 yılında bu yana durmaksızın büyüyen AKE, sektörün önemli aktörlerinden biri olmanın sorumluluğuyla kullanıcılarına güvenli ve konforlu seyahat özgürlüğü sunmaya devam ediyor. 2012 yılı itibari ile yürüyen merdiven ve bant üretimine başlayan AKE, asansör, engelli sistemleri üretimiyle de Türkiye'nin markası olarak öne çıkıyor. Üretmiş olduğu sistemleri Avrupa, Rusya ve Ortadoğu ülkelerinden Afrika'ya kadar geniş bir alana ihraç eden AKE , üreterek büyümenin, büyürken sektöre ışık tutan ve yön veren firma olmanın mutluluğunu yaşıyor.

## AKE..

AKE has been continuously growing since its establishment in 1995 and keeps on offering freedom of safe and comfortable travels for its users with the responsibility of being one of the major actors of its sector. Starting escalator and moving walkway production in 2012, AKE distinguishes itself as a brand of Turkey through producing elevators and systems for people with disabilities. Exporting its systems mainly to Europe and also to Russia and the Middle Eastern countries, AKE feels happy for growing by producing and being the company that enlightens and leads the sector while growing.

## ASANSÖR SİSTEMLERİ ELEVATOR SYSTEMS

*Konforunuz için tasarlandı!  
Designed for your comfort!*

## AKE ASANSÖR ÇÖZÜMLERİ AKE ELEVATOR SOLUTIONS

AKE, binanızın ve yapınızın ihtiyaçlarına yönelik asansörleri tasarlar, üretir, kurar ve korur. AKE'nin asansörleri, tüm yapı tiplerinde sizlerin ve yüklerinizin transferlerini rahat, güvenli ve verimli bir şekilde karşılamak üzere tasarlanmıştır. Aynı zamanda kişisel beklentilere uygun kabinler üretir. Bu üretim süreci, iç mimari, resim ve endüstri tasarımı disiplinlerinin neredeyse tümünü içerir.

AKE designs, manufactures, installs and protects lifts for your building and your building requirements. Elevators are designed to meet all your building and cargo transfers in a comfortable, safe and efficient. At the same time, AKE produces elevator cabins with aesthetic lines according to the personal expectations. This production process comprehends nearly all types of interior architecture, painting and industrial designs.

## MAKİNE DAİRELİ / MACHINE ROOM

## MAKİNE DAİRESİZ / MACHINE-ROOMLESS

### Makine dairesiz sistemlerin avantajları; The advantages of the machine-roomless elevator systems;

- 1 Diřlisiz motorun ekonomik boyutları ile bina hacminde tasarruf sağlar.
  - 2 Son teknoloji kontrol teknikleri ile eşiz konumlama hassasiyeti sağlar.
  - 3 Her çeřit binaya kolaylıkla monte edilir.
  - 4 Kaldırma ünitesinin üstün performansı, sessiz ve konforlu bir seyir sağlar.
  - 5 Daha az demeraj akımı çeker ve daha az enerji tüketir.
  - 6 Hızlı ve etkin montaj yapılmasına olanak verir.
  - 7 Optimum performans.
- 1 With gearless motor's economic size provides save on the volume of the building.
  - 2 With latest control techniques provides high sensitivity positioning.
  - 3 This system is easily mounted to all kinds of buildings.
  - 4 Lifting unit with superior performance provides quiet and comfortable movement.
  - 5 Consumes less energy and draws less starting current.
  - 6 Allows for fast and efficient installation.
  - 7 Optimum performance.

## ASANSÖR BİLGİLENDİRME

**Yeni standart ve düzenlemelerin getirdikleri ile konfor ve güvenlik artıyor**

- Asansör kuyusuna dair güçlendirmeler,
- Asansör kuyusu ve makine dairesinin havalandırma seviyesinin artması,
- Kapı önlerinde daha yüksek aydınlatma seviyesi,
- Makine dairesinde daha yüksek aydınlatma seviyesi,
- Asansör kuyusunda daha yüksek aydınlatma seviyesi,
- Asansör kabiniinde daha yüksek kabin aydınlatma seviyesi,
- Erişebilirlik gereği minimum 800 kg. kapasiteli kabin
- Kabin içlerinin yangına karşı dayanıklı olması,
- Kuyu üst boşluğu ve kuyuda daha geniş güvenli alanlar,

## ELEVATOR INFORMATION

**New standards and regulation improving the safety and comfort.**

- Strengthening of the elevator shaft
- Increase in the ventilation level of the elevator shaft and machine room
- Higher lighting level in front of the landing door,
- Higher lighting level in the machine room,
- Higher level of lighting in the elevator shaft,
- Higher level of lighting in the elevator cabin,
- Minimum 800 Kg capacity required for accessibility
- The cabin interior needed to be fire resistant,

## TEKNİK SERVİS TECHNICAL SERVICE

**AKE ASSISTANCE** ile kaliteli ve ekonomik teknik servis hizmeti ile müşteri memnuniyetini en üst düzeyde sağlamaktayız. İletişimi güçlü uzman teknik kadromuz ile asansör, yürüyen merdiven ve engelli sistemleri servisinde güven veriyoruz.

With **AKE ASSISTANCE**, we are providing customer satisfaction at highest level with qualitative and economic technical service. Through strong communication skills, we assure trust with our specialized technical team in elevator, escalator and disabled systems.

### AVANTAJLARIMIZ; ADVANTAGES;

Farklı marka asansör ve yürüyen merdiven servisinde uzmanlık	Specialized in different brands of elevator and escalator services
Güvenilir ve ekonomik maliyetli hizmetler	Trustful and low cost services
7/24 Servis	7/24 service
Orijinal yedek parça stoğu	Original spare parts stock
Bayilere teknik bilgi destek hizmeti	Technical information support for distributors
Sürekli eğitim	Continuing education

#### AKE GÜVENCESİ ile AKE GUARANTEES

Performans artışı, enerji tasarrufu, güvenlik, standartlara uygunluk ve yapıya uygun ergonomik çözümler.

High performance, energy saving, conforming to standards, economic and integrating solutions with buildings.
